

# Naturally effective.

## Oximo WireFree RTS

The eco-designed motorised system  
for rolling shutters powered by daylight

## Why install solar-powered roller shutters?

- **No structural work**, no damage to the interior of your home.
- **An autonomous solution** which isn't dependent on mains power.

## Good reasons to choose Somfy motorisations.

### ➤ **Guaranteed reliability**

Just as reliable as an electric roller shutter, and it doesn't need full sunlight to operate. Natural light alone is enough to charge the battery.

Optimal battery life:

**45 days**  
minimum

The battery life lasts for **45 days**, in complete darkness, based on 2 raise/lower cycles per day.

### ➤ **Guaranteed quality**

The entire ecosystem: panel, motor and battery is **guaranteed for 7 years**. Quality assurance ensuring genuine peace of mind.

## ...and long life

Solar panel: 20+ years\*/Battery: 8+ years\*

\* Tested by an independent laboratory

### ➤ **A responsible and sustainable ecosystem**

The Oximo WireFree RTS motorised system is eco-designed to comply with the requirements of the **ACT FOR GREEN label**.

### ➤ **A universal solution**

Suitable for installation anywhere in France, whatever the level of sunshine. Compatible with all types of shutters.

Your installer

## Choice of **control**

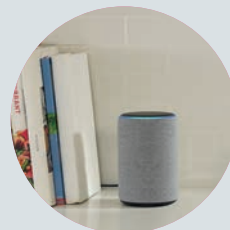

A connected solution,  
compatible with TaHoma

### ■ **The TaHoma home automation box**

It centralises control of all your motorised rolling shutters at once and schedules shutters to open and close automatically in sync with other appliances (such as lights for instance).

Solar-powered roller shutters are now joining the world of the smart home, and can be voice-controlled!

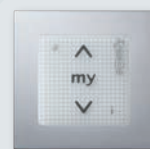

## Control units

### WALL-MOUNTED WIRELESS CONTROL

#### ■ **Smoove RTS**

Mechanical or touchscreen wall-mounted control unit to control 1 roller shutter.

### CENTRAL REMOTE CONTROL

#### ■ **Situo 5 RTS**

5-channel remote control. To control up to 5 rolling shutters, or 5 groups of shutters, together or separately.

### COMPATIBILITY

with all RTS remote controls.
