

About Somfy

Somfy's leading smart management solutions for homes and buildings have been improving people's daily lives for over 50 years. Developed with comfort, ease of use, security and sustainability in mind, our innovations automate and connect rolling shutters, curtains and blinds, gates and garage doors, lighting and heating, alarms systems and more. We are committed to creating useful solutions that are accessible to all, designed for today and beyond.

Yslo io, the best of Somfy for everyone

Maintain an aesthetic façade

Yslo motorisations are compact, silent and can be adapted to all your swinging shutters: new or old, wood, PVC or aluminium and from 1 to 4 panels.

The color of the motorisation can be customised to match your windows and shutters, for a renovation or a construction project.

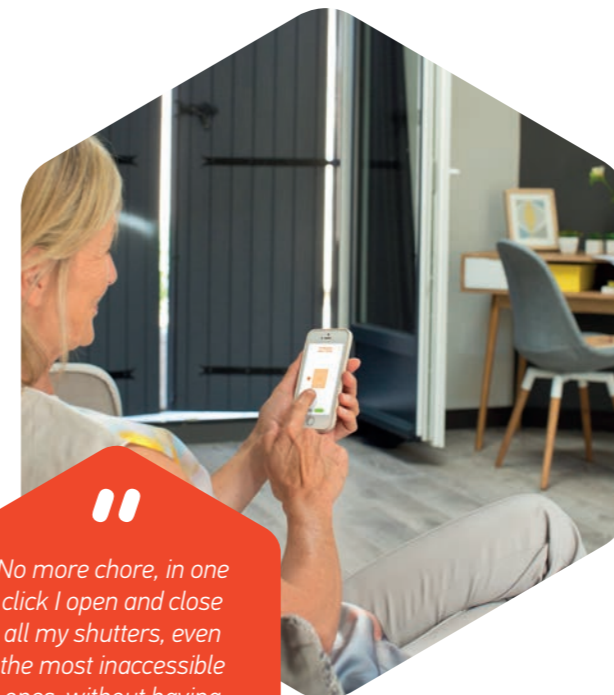

Now you can enjoy the charm of tradition and technology!

io-homecontrol® is the company's leading technology

By choosing io-homecontrol®, benefit from the most efficient two-way radio protocol in terms of reliability, security and features offered, for controlling openings and closures in the house.

No more chore, in one click I open and close all my shutters, even the most inaccessible ones, without having to lean out the window.

Enjoy maximum comfort

With Yslo io, you choose the control mode that suits you best: wall control, remote control or smartphone. Real-time feedback ensures that your shutters are closed properly.

Stay calm in all circumstances!

With the Yslo range, the perfect closing of the shutters delays break-ins. Yslo io is a real concentrate of innovations:

- Anti-finger pinch safety device
- Long shutter life due to smooth docking
- Operation even in the event of a power failure thanks to the backup battery (optional)
- Obstacle detection and freeze protection

We think we forgot to close our swinging shutters? Don't worry, we can check and close them remotely.

The Yslo io range can be adapted to all types of swinging shutters, whatever the installation.

Go further with TaHoma®

Thanks to Somfy's TaHoma® home automation box, you can control your swinging shutters from your smartphone! Practical, when you want to close your shutters remotely in case of longer than expected absence! You can also create scenarios with all your other Somfy motorised products.

Protect your shutters from the wind

Yslo io motors are designed to provide maximum wind protection. Combined with Somfy's wind io sensor, your shutters are protected, even in the event of strong gusts.
